

Installation manual

GMC 8inch Android

Are you ready to install our unit?

Let's go >>>

4 steps to install

STEP 01

Check

- 1) Do the screen is broken ?
- 2) Do the accessories have missing ?

STEP 02

Test your unit before a full installation.
(Connect the power cable to your car)

STEP 03

Do the full installation.

STEP 04

Test the head unit functions.

STEP 02 Test your unit before installing into your car (Connect the power cable to your car)

1. Double check your car models, make sure the unit does fit to your car.

2. Prepare some extra tools before installation.

Ratchet

Socket extension

Electric drill (if you have)

Flathead Screwdriver

Philips Screwdriver

3. The center consoles for the GMC models generally have two styles like step(1). With a pry tool, the users can easily disassemble the center consoles.

4. Then you can use the ratchet and socket extension or electric drill with socket extension to unscrew the bolts around the old radio.

Now you can take out the power cable to connect the head unit and then try to turn it on. If this part is no problem, you can do the remain steps.

STEP 03 Do the full installation.

5. Connect the main cables such as power cable, canbus, canbus box speaker and radio antenna connector like below.

6. Plug the head unit into the center console, then place the GPS antenna and microphone as shown. The wires are hidden in the side of pillar trim and led to the head unit.

STEP 04

Test the head unit functions.

(FM, SD, USB, Bluetooth, reversing, handbrake, headlight, steering wheel control and etc)
